

**In light of the COVID-19 situation, we are strictly limiting foot traffic in and out of our hospital.**

When you arrive, **please call us** from your car at 847-965-4010.

- If you are picking up supplies, we will run them out to you.
- If you are bringing in a pet, we will have a staff member bring your pet into the hospital and have you wait in your car. A veterinarian will then call you to discuss your pet's exam findings and treatment plan. Payment will be taken over the phone.
- We will be utilizing both our vestibule and our side door to keep people separated and safe. **A staff member will guide you on where to go.**
- **OUR HOURS MAY CHANGE ABRUPTLY-** In an effort to keep staff safe & minimize exposure, we may close early. Call before coming into the clinic.

We appreciate your patience as we are striving to keep everyone safe.
